START A NEW SUMMER TRADITION

YMCA Camp Harrison TRY CAMP

If you've got a child who is interested in trying resident camp but feels a little nervous about going away for a week or more, we offer our TRY CAMP session. Specifically designed for first time campers, this four-day, three-night session will allow your child to see what camp is all about. Campers will sleep in cabins, make new friends, and experience the fun of mountain biking, climbing walls, water inflatables and more! This mini-camp is a great way to test the waters and prepare your child for a longer camp session in the future.

Even in this shortened session, you'll be amazed by the incredible development your child will experience.
